EXPOSITIONS

AKSELI GALLEN-KALLELA

11 MARCH-25 JULY 2022

Considered one of the major Finnish artists at the turn of the nineteenth and twentieth centuries, Akseli Gallen-Kallela (1865-1931) produced an abundant oeuvre, in which landscapes played a major role. Representing a primitive and majestic nature, he imbued his landscapes with a symbolist and mystical quality, producing views that are breathtakingly beautiful and modernist, of which the exhibition will bring together around fifty examples, comprising paintings and engravings.

JOHANN HEINRICH FÜSSLİ

16 SEPTEMBER 2022-23 JANUARY 2023

Johann Heinrich Füssli (1741-1825) was one of the most extraordinary Romantic artists of the end of the eighteenth century in Europe. His fascinating oeuvre as a painter and draughtsman, which combines drama, angst, and sensuality, reflected a new taste for exploring the hidden realms of dreams and the fantastic, between light and shadow. The exhibition, which will bring together around sixty works, aims to provide an overview of Füssli's career, by highlighting the diversity of his sources of inspiration, particularly literary sources.
